

## REACH (Registration, Evaluation, Authorisation, and Restriction of Chemicals) Statement Policy

### 1. Purpose

This REACH Statement Policy outlines the commitment of European Thermodynamic Limited to comply with the European Union Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH). The objective is to ensure the responsible and safe use of chemicals throughout their life cycle, promoting human health, environmental protection, and innovation.

### 2. Scope

This policy applies to all employees, contractors, and suppliers of European Thermodynamic Limited involved in manufacturing, importing, distributing, and using chemical substances and mixtures subject to REACH regulations.

### 3. Compliance with REACH Regulations

European Thermodynamic Limited is committed to fulfilling its obligations under REACH, including:

- a. **Registration:** Ensuring that all applicable substances are registered with the European Chemicals Agency (ECHA) by specified deadlines.
- b. **Evaluation:** Participating in the evaluation process, providing necessary information on substances, and collaborating with relevant authorities and partners.
- c. **Authorisation:** Seeking authorisation for substances listed in Annex XIV and ensuring the safe use of such substances within the scope of granted authorisations.
- d. **Restriction:** Complying with restrictions on manufacturing, placing on the market, or using certain hazardous substances.

### 4. Communication and Information Exchange

European Thermodynamic Limited is committed to transparent communication regarding chemical safety and providing relevant information to downstream users, customers, and other stakeholders. This includes:

- a. Communicating information on safe use to downstream users in the supply chain.
- b. Sharing relevant safety data sheets (SDS) with customers and ensuring that SDS are up-to-date and accessible.
- c. Collaborating with suppliers to obtain necessary information on the safe use of substances.

**European Thermodynamics Limited**  
*Intelligent Thermal Management*

## 5. Substitution and Innovation

European Thermodynamic Limited encourages the substitution of hazardous substances with safer alternatives and promotes innovation in chemical processes and products. This includes:

- a. Identifying opportunities for substitution and adopting alternative substances or technologies.
- b. Integrating sustainable practices into research and development processes.

## 6. Continuous Improvement

European Thermodynamic Limited is committed to continuous improvement in its chemical management practices. This involves:

- a. Periodic review and update of processes and procedures to align with the latest REACH requirements.
- b. Employee training programs to enhance awareness and understanding of REACH regulations.

## 7. Responsibilities

All employees, contractors, and suppliers are responsible for understanding and adhering to this REACH Statement Policy. The European Thermodynamic Limited Management Team oversees and ensures compliance with REACH regulations.

## 8. Review and Revision

This REACH Statement Policy will be periodically reviewed and updated as necessary to ensure alignment with the latest regulatory requirements and the continuous improvement of chemical management practices.
